## **PURR - FECT CAT LITTER**

**Purr - Fect Cat Litter** has been developed as a cat litter that uses natural ingredients that can be recycled on to your garden.

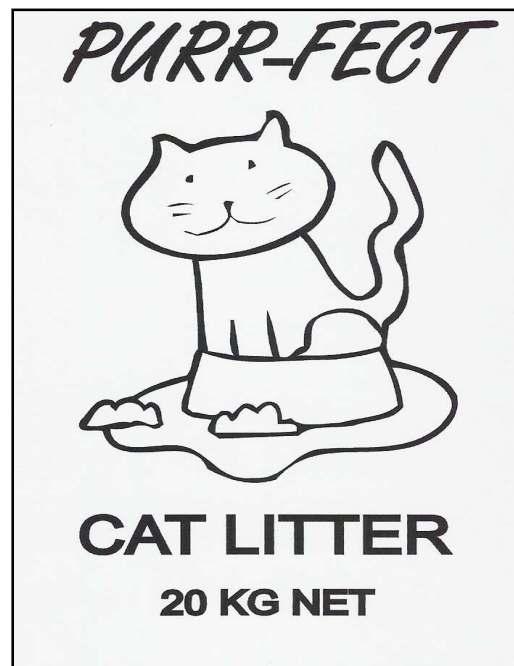

Due to the nature of ingredients used it can be used as a “natural” fertiliser and / or soil conditioner on your gardens.

### Directions

Pour **Purr- Fect Cat Litter** into litter tray to depth of approximately 50 mm (2”).

Remove solids and wet patches on a regular basis.

Wet material can be added to garden as a fertiliser / soil conditioner.

### Materials

- **Lucerne**  
*Natural legume pasture, assists in absorption, trapping unpleasant odours and add a country side perfume to the immediate area.*
- **Limestone**  
*Assists with sanitation and hygiene of litter tray.*
- **Cereal Grain**  
*Assist in moisture absorption and odour control.*

- *To assist in a pleasant transition from your present cat litter we recommend that you blend the two together and increase **Purr-Fect Cat Litter** over a few days.*
- *Remove and dispose of all solids (stools) from cat litter before adding to garden.*
- *Do not add to plants that do not tolerate high levels of Calcium (limestone) or Nitrogen.*
- ***Purr-Fect Cat Litter** is safe to be flushed as it is manufactured from natural materials.*
- *General observation is that earth worm activity will increase where **Purr-Fect Cat Litter** has been added to gardens.*
